BUSINESS OVERVIEW

Telecom · Electrical · Utility · Standby Power

Experienced electrical crews · Ontario

POWERING ONTARIO'S INFRASTRUCTURE, FROM THE TOWER TO THE TREATMENT PLANT.

Telecom is our core: SCI was built on tower and site power work. Around it, our experienced, safety-focused electrical crews deliver ICI electrical, municipal and hydro utility work, farm electrical, EV charging and standby power. Single point of contact: SCI manages the electrical scope and coordinates civil and trenching through trusted partners.

TELECOM AT THE CORE | **SKILLED, SAFE CREWS** | **ONE POINT OF CONTACT** | **ICI · MUNICIPAL · AG · EV**

WHAT WE DO

Telecom & Towers (our core)
TOWERS · SITE POWER · GROUNDING · FIBRE

Tower and shelter site power, conduit, grounding systems and hydro layouts for carrier, tower and fibre builds, with trenching coordinated.

ICI Electrical
INDUSTRIAL, COMMERCIAL & INSTITUTIONAL

Plants and warehouses, retail and offices, schools, healthcare and municipal facilities: services, distribution, lighting, motor controls and upgrades.

Municipal
WATER / WASTEWATER

Treatment plants, pumping and lift stations: electrical, MCCs, instrumentation conduit and generator tie-ins, with trenching and chambers coordinated.

Utility
HYDRO LAYOUTS & SERVICE

Hydro utility layouts, service connections and coordination with Ontario local distribution companies.

Agriculture
FARMS · BARNS · FEED MILLS

Three-phase service upgrades, motor controls, lighting and standby power for farms and rural industrial sites, with trenching coordinated.

EV Charging
COMMERCIAL, ICI & RESIDENTIAL

Load calculations, service upgrades and wiring for Level 2 and DC fast chargers, with trenching and pads coordinated, working with charger suppliers.

Generators & Standby Power
COMMERCIAL · AG · TELECOM · MUNICIPAL

Transfer switches, hydro layouts and field wiring for standby generator installations, with concrete pads coordinated.

Mission-Critical
CRITICAL POWER & INFRASTRUCTURE

Electrical and infrastructure support for facilities where power reliability matters most.

WHY SCI

One accountable electrical contractor and one point of contact for your project.

Skilled, experienced crews
Experienced electrical crews for telecom, ICI, municipal and utility sites.

Safety on every site
Safe work planning is built into how we scope, schedule and run each job.

Single point of contact
SCI manages the electrical scope and coordinates civil and trenching through trusted partners, under one contract.

Hydro utility know-how
Utility layouts and service coordination with local distribution companies are everyday work.

Planning & streamlined execution
Clear scope, schedule and communication from first site visit to close-out.

Right-sized and responsive
Agile on small and mid-size scopes, and ready to support multi-site programs.

WHO WE WORK WITH

- Telecom carriers, tower & fibre builders
- Facility owners & property managers
- General contractors & civil primes
- Municipalities & public utilities
- Generator & EV charger suppliers
- Farms, feed mills & rural industry

HOW WE WORK

01	**Plan** Site visit, scope review, load and routing check, clear pricing.
02	**Coordinate** Permits, ESA and utility paperwork, suppliers and schedule.
03	**Build** Our electrical crews deliver the work, with civil scopes coordinated under SCI.
04	**Close out** Testing, energization support, documentation and handover.

Let’s talk about your next project.

Send us drawings, a site address or a scope. We will review it and get back to you with a clear plan and price.
