AGRICULTURAL ELECTRICAL

Farms · Barns · Feed Mills

Three-phase · Motor controls · Standby power

POWER FOR FARMS AND RURAL INDUSTRY, FROM BARN TO FEED MILL.

Service upgrades, motor controls and standby generators for farms, barns, feed mills and rural industry, so operations keep running. Need trenching to an outbuilding or a pad for a generator? We coordinate it through trusted partners under SCI.

THREE-PHASE UPGRADES | **MOTOR CONTROLS** | **STANDBY GENERATORS** | **ONE POINT OF CONTACT**

WHAT WE DO

- Three-phase service upgrades
- Motor controls and equipment power
- Barn and building lighting
- Standby generators and transfer switches
- Feeders to outbuildings and equipment
- Coordination with the local hydro utility

WHO WE WORK WITH

- **Farms and barns**
- **Feed mills and grain handling sites**
- **Rural industrial and processing sites**
- **Equipment and storage buildings**

HOW WE WORK

01	**Assess** Site visit, scope review, existing equipment, load and routing check.
02	**Coordinate** Permits, ESA and utility paperwork, suppliers and schedule.
03	**Build** Our electrical crews deliver the work; civil and trenching coordinated through trusted partners.
04	**Close out** Testing, energization support, documentation and handover.

Serving sites across all of Ontario from our Waterloo head office.

WHY SCI

Built on 30+ years of telecom work
Telecom is where SCI started and still our core: the same discipline goes into every site.

Hydro utility know-how
Service upgrades and coordination with the local hydro utility.

Single point of contact
SCI manages the electrical scope and coordinates civil and trenching through trusted partners.

Safety-first crews
ISNetworld® compliant, with safe work planning on every site.

Planning a farm upgrade?

Send us your address, equipment list or scope. We will review it and come back with a clear plan and price.
